Microdermabrasion & Microneedling

Microneedling - 1 hour 15 minutes, \$150

Microneedling (also known as collagen induction therapy) is a minimally invasive treatment to rejuvenate the skin. A device with fine needles creates tiny punctures in the top layer of the skin, which triggers the body to create new collagen and elastin. Results can include improved texture and firmness, as well as a reduction in scars, and pore size.

Organic Microdermabrasion - 1 hour, \$85

This treatment has a rejuvenating effect on common problems such as acne scarring and mild discoloration, sun damage and wrinkles. It's a painless, non-surgical procedure that gently exfoliates your skin.

Ultrasonic Exfoliation - 1 hour, \$85

Removes dead skin cells to even out the skin tone while stimulating circulation and giving the skin a smooth, youthful appearance. Suitable for sensitive and aging skin

Chemical & Enzyme Peels

Basic Chemical Peel - 45 minutes, \$70

The Stimulator Peel Treatment is ideal for skin that feels rough or looks dull, as it uses a new, unique combination of exfoliating ingredients to renew and revive skin. With no downtime, this chemical peel is the ultimate results-oriented treatment. This peel is considered a “lunch time peel” and can be done as often as every 2 weeks. Add on treatments are available for this service.

Advanced 3-Step Chemical Peel - 45 minutes, \$250

This clinical treatment can be used on any skin-type or tone. It improves the skins ability to repair and renew itself by providing epidermal renewal and dermal stimulation, producing longer-lasting results than ordinary peels. This peel is ideal for moderate-to-severe aging, hyper-pigmented, scarring or acneic skin. Some patients may experience peeling 5-7 days post-treatment. A consultation is required prior to treatment.

Addresses early signs of skin aging, mild to moderate photo-damage, hyperpigmentation, rough or uneven skin or acne. A series of 4-6 peels is recommended for best results.

Organic Hyper-Pigmentation Peel - 45 minutes, \$60
